

PLAY ON

Sport is who we are. It's in our hearts. And always on our minds. It's something we do together. As a team.

With the current situation of Covid-19, we realize that now, more than ever, is the time to stand together – only apart.

The visual content of this catalogue reflects these circumstances, as we haven't been able to shoot photos and videos with our clubs and players like normal.

Instead, we have asked a handful of our best handball, football and volleyball athletes to produce a series of home training videos to showcase the new SS21 collections in use.

We miss training for game day. Miss entering the sport arenas. Miss that adrenaline rush that we all know so well. That feeling that almost takes our breath away. But we believe that sport has the ability to unite us despite distances and across nations. Sport is a truly powerful thing. And even through challenging times, we will PLAY ON.

LEAD

The hummel LEAD collection is a new extensive and exciting team sport collection launching in 2021. The LEAD collection is a full team sport collection for both indoor and outdoor team sports – for both amateurs and professionals – and for both women, men and kids.

The LEAD styles are inspired by an 'Everyday Active' perspective where it should be easy and fast to switch from leisure to action in just a moment. The styles are designed from the idea of bringing daily fashion elements into the classic team sport design.

LEAD brings plenty of high-tech features developed for high-performing athletes. Features such as moisture management, light weight fabrics and a performance fit ensures a great functionality both on and off the pitch or court.

LEAD

FUNCTIONALITIES

Cut and sew neckline construction

Open mesh structure angled sidepanel

Two tone printed chevrons sensing motion

BEECOOL moisture management

Engineered curved back yoke seam for seam reduction

Open mesh and flat knit structure material combination

LEAD

FUNCTIONALITIES

Engineered curved back yoke seam for seam reduction

Cut and sew contrasted back yoke construction

Two tone printed chevrons sensing motion

Open mesh and flat knit structure material combination

BEECOOL moisture management

Contrasted back yoke seam stretching across imaginary sideseam

Novelty mesh and flat knit structure material combination

HUMMEL GO

The hummel GO collection is one of our best performing collections, and we are therefore now adding seasonal colors to it. These colors will run for the whole year of 2021.

The hummel GO collection is a versatile multi-sports collection offering combinable styles perfect to wear to and from training – for the individual athlete and for teams. Kept in a clean, minimalistic look, these styles are quality basics offering maximum value for money. The collection includes sweatshirts, hoodies, T-shirts, shorts and pants in a classic and sporty colourway making room for personal styling.

hummel GO styles are crafted from comfortable fabrics and designed with active fits making them ideal for performance and traveling. The silhouettes are offered with the iconic hummel® chevron print and subtle logo branding for a consistent, sporty look.

HMLFIRST

This season, the baselayer collection takes you back to the roots by offering authentic and recognizable designs true to everything that is hummel: simple colour-blocking, chevrons and active silhouettes with the sole purpose of working with your body. For the 2021 season we have decided to add some seasonal colors, which will run for the whole year.

The collection offers tank tops, bras, jerseys, shorts and tights in seamless constructions with soft and stretchy knit structures ensuring great comfort and support for any type of workout. On top of that we have added some new styles on the tights program, these are made in a new quality that makes them perfect as a stand alone piece. Also a body-sculptured bratop with a cup is one of this season's new functional additions.

The silhouettes come with engineered panels and side seams with added stretch to give any athlete the needed freedom to move with maximum mobility. These styles are meant to show off body contours in just the right balance between support and freedom.
