# **SPRING/SUMMER 2021**

# newline

# ITALL

IN 1981

STARTED

- with the founder of Newline, Helge Petersen, hanging in a parachute between sky and earth. Back on the ground he started wondering why his suit was wet, and the parachute already dry.

With a background from the Danish Special Forces and many years as a runner, he used the parachute to create an innovative range of functional products with a focus on durability, details and comfort.

This is still the DNA of Newline.

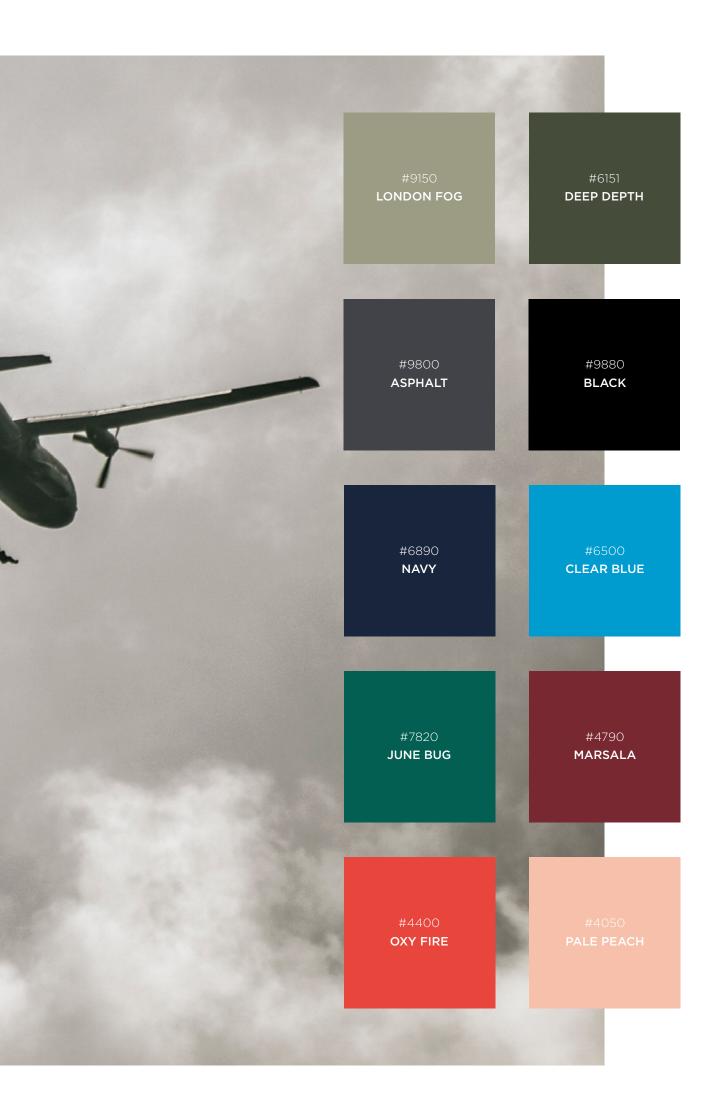

# NEWLINE SS21

# **INSPIRED BY THE HERITAGE**

The Newline SS21 Collection is inspired by the unique military DNA to create a bold and extraordinary collection made for runners. All the details and functions are made and designed to enhance your running performance – in all conditions. The quality functional pieces are divided into two categories; the military capsule with colors found in the heritage, and the rest made in seasonal fresh colors.

# NEWLINE Spring/summer COLORS

The SS21 main colors are earth colors that represents the strong military heritage in the military capsule. Furthermore, all the styles are made in fresh, contemporary, sporty brights that symbolizes the playful universe Newline also associate with.

# NEW ELEMENTS IN NEWLINE SPRING / SUMMER

2021

## **360 VISIBILITY**

The SS21 collection focuses on 360 visibility during dark hours of the day, therefore, all styles are designed with reflective print, logo, and/or tape as well as neon details.

## IMPROVED QUALITIES

The SS21 collection is designed and constructed focusing on improving the qualities. We have used high quality materials that offers moisture management, breathability, durability, and high level of performance.

## STORM CUFFS

The SS21 Collection has several pieces with thumb holes, elastic bindings and storm cuffs for keeping the wind out and secure warm hands.

### **IMPROVED FITS**

Newline always has fit in mind when designing sportswear to increase performance, functionality, comfort, and ease of movement.

## **REDESIGNED STYLES**

All SS21 styles have been renewed focusing on fittings, cuts, prints and contrasts – making a whole new era for Newline.
